GEORGE GOODCHILD STEVENS SEN.
GEORGE GOODCHILD STEVENS JUNR.

COMPLETE SPECIFICATION.

15 **An Improved Medical Compound Specially Applicable for the Cure of
Old Wounds, Sores, Scalds, and Burns.**

We, GEORGE GOODCHILD STEVENS Senior, and GEORGE GOODCHILD STEVENS
Junior, Makers of Papier Maché Figures, both of 8 Oswald Street, Rushmore
Road, Clapton Park, do hereby declare the nature of this invention and in what
manner the same is to be performed, to be particularly described and ascertained
in and by the following statement:—

20 This invention refers to a preparation for outward application, designed for
curing wounds bruises scalds and the like. It consists of an ointment or unguent
compounded of the following materials in the proportions stated, or thereabouts.

1. Linseed Oil.	-	-	-	-	-	74 parts by weight.
2. Yellow Resin.	-	-	-	-	-	18 parts by weight.
3. Pure Bees Wax.	-	-	-	-	-	7 parts by weight.
25 4. Pitch.	-	-	-	-	-	1 part by weight.

100.

30 These materials should be boiled and carefully mixed together, and then
allowed to cool. When applied cold with a clean soft rag or small brush it will
be found to effect a speedy cure.

[Price 8d.]

G. G. and G. G. Stevens's Improved Medical Compound.

Having now particularly described and ascertained the nature of our said invention and in what manner the same is to be performed, we declare that what we claim is:—

“An ointment for outward application composed of the materials stated and in the proportions mentioned or thereabouts, substantially as herein described and 5 set forth.

Dated this 2nd day of May, 1902.
